DISCOVERING, DEVELOPING, DELIVERING INNOVATIVE MEDICATION  
TO IMPROVE WELL-BEING OF WOMEN AND MEN

Besins Healthcare is a privately held, global pharmaceutical company headquartered in Monaco.

We are a world leader in novel therapies for gynecology and andrology. We have discovered ground-breaking technologies to improve patient well-being throughout our history. We developed several hormone therapies over the years including bioavailable natural progesterone by different routes of administration for pregnant women from conception until delivery and a natural testosterone transdermal gel for testosterone deficiency syndrome. We continue to be a leader in Estradiol Replacement Therapy with the first transdermal gel marketed in Europe.

Our products are trusted and prescribed by healthcare professionals in more than 100 countries throughout the world.

### Our Mission

To discover, develop and deliver novel healthcare solutions that restore, restart, and regulate fundamental female and male body processes

### Our Vision

A world in which patients and physicians can confidently employ safe therapeutic approaches for regulating fundamental body processes to promote optimal well-being
